EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims, Claim 8 is amended as follows. Markup is made with respect to the listing in the amendment filed on 4 April 2007:

8. A hearing aid, comprising:

an analysis device configured to determine whether a ~~batter~~ battery of the hearing aid is changed too late, and to generate corresponding information data;

a transmission device configured to transmit the information data to an external system, the external system comprising a data network that is the Internet or other wide-area network, the transmission device comprising:

an embedded Internet or wide-area network communication module; and

an address register comprising an address to which a respective information data is to be sent.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:
3. Regarding Claim 1, US Patent 6,310,556 to Green et al. discloses a hearing aid that detects and signals a low battery power condition (abstract). US Patent 7,200,237 to Zhang et al.

discloses a hearing aid that communicates via the Internet for maintenance purposes (column 4, lines 48-57). Further, changing a battery and training a user to appropriately change a battery are well known. However, the prior art does not disclose making a determination of whether a battery was changed too late (i.e., the device was permitted to operate in a degraded mode due to battery depletion for a prolonged period). Because the prior art does not disclose every element of the claimed invention, Claim 1 is allowable.

4. Claims 8, 13 and 14 contain limitations similar to those of Claim 1 and are allowable for the same reasons.

5. Claims 2 through 7, 10 through 13 and 15 are allowable due to dependence from their respective base claims.

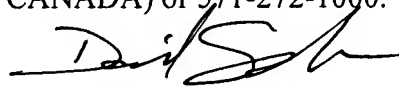

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Swerdlow whose telephone number is 571-272-7531. The examiner can normally be reached on Monday through Friday between 7:30 AM and 5:00 PM.
